

ONTARIOPOWER GENERATION

BE THE GENERATION to help build a brighter tomorrow.

Ontario Power Generation Inc. (OPG) continues to set the bar for environmental protection, community involvement, and economic impact while safely keeping the lights on. Now we've set our sights on being a net-zero carbon company by 2040 and a catalyst to help the economies where we operate achieve net-zero by 2050. OPG operates a diverse portfolio of generation assets, including nuclear, hydroelectric, biomass and solar. OPG is also a cleantech leader and innovator, offering challenging and unique work opportunities. Help OPG use its power to change the world.

OPG is seeking two business-minded, results-oriented, experienced legal professionals to join its in-house legal department as **Senior Counsel**. Reporting to the Assistant General Counsel, the **Senior Counsel** will support OPG's major projects and strategic business initiatives, utilizing their legal experience to provide risk-informed and practical legal advice across corporate/commercial matters. This role will suit results-oriented lawyers with the ability to work in a fast-paced, changing environment who can effectively manage several projects simultaneously.

The ideal candidates will have **6 to 10 years** of corporate/commercial law experience, gained from a large firm or in-house environment, including experience advising on major infrastructure projects and working in the energy industry or another highly regulated industry. Exposure to financial and M&A transactions, technology or IP matters would be considered an asset. The successful candidates will have demonstrated the ability to build relationships and gain the trust of business stakeholders. This is an exciting opportunity to work in an environment where you will contribute to OPG's growth and success in generating safe, clean, reliable, low-cost power in a sustainable manner.
