We aspire to be the most inclusive company in the world. We believe we all must make a choice every day – individually and collectively – to drive meaningful change through our words, our deeds and our culture. Our Work Appropriately philosophy supports our foundation of inclusion and provides employees the flexibility to work where they can have the greatest impact on achieving our goals, dependent on role needs. Every day, we want every employee, no matter their background, ethnicity, or location, to feel they belong to one General Motors team.

General Motors is growing its Canadian legal team and seeking a lawyer with strong regulatory experience to join their team as **Counsel**. The successful candidate will advise on a broad range of commercial and regulatory matters and have demonstrated the ability to build relationships and gain the trust of business stakeholders. This is an excellent opportunity to gain broad in-house experience and work closely with a number of business teams at a global company that is at the forefront of a rapidly transforming industry, including with respect to electric and connected vehicles as well as new digital and software-based products and services.

The ideal candidate will have **5 to 7 years** of regulatory and commercial experience gained from a leading firm or in-house environment, including strong experience advising on regulatory issues such as environmental and consumer products matters. Prior exposure to dispute resolution, litigation management and real estate matters, and experience advising clients in the technology or manufacturing sectors, would be considered an asset. This is an exciting and varied role that will include significant involvement in projects across a number of business teams.

General Motors offers a hybrid working model, excellent benefits and strong mentorship.

For more information or to apply, please contact Sherri Pinsler at sherri@hellergroup.ca

As this is an exclusive assignment with The Heller Group, all inquiries and applications sent directly to General Motors will be redirected to The Heller Group.
